July 2023 Market Update: Is there light at the end of the tunnel?

With the open of 2024 order banks, the auto industry appears to be emerging from the global supply chain shortages. We are being provided a positive outlook by some of our manufacturers while others are having a more difficult time.

- o Toyota – Good allocation for full product line of 2024 vehicles, pricing to be released in August/September.
- o Nissan – Good allocation for full product line of 2024 vehicles, all pricing is currently available
- o Ford – Good allocation for full product line of 2024 vehicles, all pricing is currently available. Every vehicle order will have to be approved through the Ford Order Verification Program (FOVP). This requires a signed quote and Letter of Intent or a Signed PO for every order placed.
- o Stellantis (Chrysler, Dodge, JEEP, RAM) – We will have limited offerings, but most pricing is currently available. Unfortunately, we will not have access to Promaster nor 3500/4500/5500 Chassis for municipal fleet once again for 2024 production.
- o General Motors – The entire product line from GM is on what has been termed controlled allocation. This is unprecedented ideology in municipal fleet as we have never worried about allocation. As GM's largest volume municipal dealer in the US, Alan Jay is working diligently to obtain as much allocation as possible to fill your agency's needs. Though many GM vehicles have pricing released for 2024, we are still awaiting others.

The following is listing of 2024 production vehicles and associated equipment in conformance with our Sourcwell bid award. Please note that all models listed are not currently available & those without pricing indicated have yet to be published. Updates with additional pricing will follow.

**THE E-VERIFY
MEMORANDUM OF UNDERSTANDING
FOR EMPLOYERS**

**ARTICLE I
PURPOSE AND AUTHORITY**

The parties to this agreement are the Department of Homeland Security (DHS) and the Alan Jay Automotive Management (Employer). The purpose of this agreement is to set forth terms and conditions which the Employer will follow while participating in E-Verify.

E-Verify is a program that electronically confirms an employee's eligibility to work in the United States after completion of Form I-9, Employment Eligibility Verification (Form I-9). This Memorandum of Understanding (MOU) explains certain features of the E-Verify program and describes specific responsibilities of the Employer, the Social Security Administration (SSA), and DHS.

Authority for the E-Verify program is found in Title IV, Subtitle A, of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Pub. L. 104-208, 110 Stat. 3009, as amended (8 U.S.C. § 1324a note). The Federal Acquisition Regulation (FAR) Subpart 22.18, "Employment Eligibility Verification" and Executive Order 12989, as amended, provide authority for Federal contractors and subcontractors (Federal contractor) to use E-Verify to verify the employment eligibility of certain employees working on Federal contracts.

**ARTICLE II
RESPONSIBILITIES**

A. RESPONSIBILITIES OF THE EMPLOYER

1. The Employer agrees to display the following notices supplied by DHS in a prominent place that is clearly visible to prospective employees and all employees who are to be verified through the system:
 - a. Notice of E-Verify Participation
 - b. Notice of Right to Work
2. The Employer agrees to provide to the SSA and DHS the names, titles, addresses, and telephone numbers of the Employer representatives to be contacted about E-Verify. The Employer also agrees to keep such information current by providing updated information to SSA and DHS whenever the representatives' contact information changes.
3. The Employer agrees to grant E-Verify access only to current employees who need E-Verify access. Employers must promptly terminate an employee's E-Verify access if the employer is separated from the company or no longer needs access to E-Verify.

Company ID Number: 1201859

4. The Employer agrees to become familiar with and comply with the most recent version of the E-Verify User Manual.

5. The Employer agrees that any Employer Representative who will create E-Verify cases will complete the E-Verify Tutorial before that individual creates any cases.

a. The Employer agrees that all Employer representatives will take the refresher tutorials when prompted by E-Verify in order to continue using E-Verify. Failure to complete a refresher tutorial will prevent the Employer Representative from continued use of E-Verify.

6. The Employer agrees to comply with current Form I-9 procedures, with two exceptions:

a. If an employee presents a "List B" identity document, the Employer agrees to only accept "List B" documents that contain a photo. (List B documents identified in 8 C.F.R. § 274a.2(b)(1)(B)) can be presented during the Form I-9 process to establish identity.) If an employee objects to the photo requirement for religious reasons, the Employer should contact E-Verify at 888-464-4218.

b. If an employee presents a DHS Form I-551 (Permanent Resident Card), Form I-766 (Employment Authorization Document), or U.S. Passport or Passport Card to complete Form I-9, the Employer agrees to make a photocopy of the document and to retain the photocopy with the employee's Form I-9. The Employer will use the photocopy to verify the photo and to assist DHS with its review of photo mismatches that employees contest. DHS may in the future designate other documents that activate the photo screening tool.

Note: Subject only to the exceptions noted previously in this paragraph, employees still retain the right to present any List A, or List B and List C, document(s) to complete the Form I-9.

7. The Employer agrees to record the case verification number on the employee's Form I-9 or to print the screen containing the case verification number and attach it to the employee's Form I-9.

8. The Employer agrees that, although it participates in E-Verify, the Employer has a responsibility to complete, retain, and make available for inspection Forms I-9 that relate to its employees, or from other requirements of applicable regulations or laws, including the obligation to comply with the antidiscrimination requirements of section 274B of the INA with respect to Form I-9 procedures.

a. The following modified requirements are the only exceptions to an Employer's obligation to not employ unauthorized workers and comply with the anti-discrimination provision of the INA: (1) List B identity documents must have photos, as described in paragraph 6 above; (2) When an Employer confirms the identity and employment eligibility of newly hired employee using E-Verify procedures, the Employer establishes a rebuttable presumption that it has not violated section 274A(a)(1)(A) of the Immigration and Nationality Act (INA) with respect to the hiring of that employee; (3) If the Employer receives a final nonconfirmation for an employee, but continues to employ that person, the Employer must notify DHS and the Employer is subject to a civil money penalty between \$550 and \$1,100 for each failure to notify DHS of continued employment following a final nonconfirmation; (4) If the Employer continues to employ an employee after receiving a final nonconfirmation, then the Employer is subject to a rebuttable presumption that it has knowingly

Company ID Number: 1201859

employed an unauthorized alien in violation of section 274A(a)(1)(A); and (5) no E-Verify participant is civilly or criminally liable under any law for any action taken in good faith based on information provided through the E-Verify.

b. DHS reserves the right to conduct Form I-9 compliance inspections, as well as any other enforcement or compliance activity authorized by law, including site visits, to ensure proper use of E-Verify.

9. The Employer is strictly prohibited from creating an E-Verify case before the employee has been hired, meaning that a firm offer of employment was extended and accepted and Form I-9 was completed. The Employer agrees to create an E-Verify case for new employees within three Employer business days after each employee has been hired (after both Sections 1 and 2 of Form I-9 have been completed), and to complete as many steps of the E-Verify process as are necessary according to the E-Verify User Manual. If E-Verify is temporarily unavailable, the three-day time period will be extended until it is again operational in order to accommodate the Employer's attempting, in good faith, to make inquiries during the period of unavailability.

10. The Employer agrees not to use E-Verify for pre-employment screening of job applicants, in support of any unlawful employment practice, or for any other use that this MOU or the E-Verify User Manual does not authorize.

11. The Employer must use E-Verify for all new employees. The Employer will not verify selectively and will not verify employees hired before the effective date of this MOU. Employers who are Federal contractors may qualify for exceptions to this requirement as described in Article II.B of this MOU.

12. The Employer agrees to follow appropriate procedures (see Article III below) regarding tentative nonconfirmations. The Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify case. The Employer agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer agrees to provide written referral instructions to employees and instruct affected employees to bring the English copy of the letter to the SSA. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending. Further, when employees contest a tentative nonconfirmation based upon a photo mismatch, the Employer must take additional steps (see Article III.B. below) to contact DHS with information necessary to resolve the challenge.

13. The Employer agrees not to take any adverse action against an employee based upon the employee's perceived employment eligibility status while SSA or DHS is processing the verification request unless the Employer obtains knowledge (as defined in 8 C.F.R. § 274a.1(l)) that the employee is not work authorized. The Employer understands that an initial inability of the SSA or DHS automated verification system to verify work authorization, a tentative nonconfirmation, a case in continuance (indicating the need for additional time for the government to resolve a case), or the finding of a photo mismatch, does not establish, and should not be interpreted as, evidence that the employee is not work authorized. In any of such cases, the employee must be provided a full and fair opportunity to contest the finding, and if he or she does so, the employee may not be terminated or suffer any adverse employment consequences based upon the employee's perceived employment eligibility status

Company ID Number: 1201859

(including denying, reducing, or extending work hours, delaying or preventing training, requiring an employee to work in poorer conditions, withholding pay, refusing to assign the employee to a Federal contract or other assignment, or otherwise assuming that he or she is unauthorized to work) until and unless secondary verification by SSA or DHS has been completed and a final nonconfirmation has been issued. If the employee does not choose to contest a tentative nonconfirmation or a photo mismatch or if a secondary verification is completed and a final nonconfirmation is issued, then the Employer can find the employee is not work authorized and terminate the employee's employment. Employers or employees with questions about a final nonconfirmation may call E-Verify at 1-888-464-4218 (customer service) or 1-888-897-7781 (worker hotline).

14. The Employer agrees to comply with Title VII of the Civil Rights Act of 1964 and section 274B of the INA as applicable by not discriminating unlawfully against any individual in hiring, firing, employment eligibility verification, or recruitment or referral practices because of his or her national origin or citizenship status, or by committing discriminatory documentary practices. The Employer understands that such illegal practices can include selective verification or use of E-Verify except as provided in part D below, or discharging or refusing to hire employees because they appear or sound "foreign" or have received tentative nonconfirmations. The Employer further understands that any violation of the immigration-related unfair employment practices provisions in section 274B of the INA could subject the Employer to civil penalties, back pay awards, and other sanctions, and violations of Title VII could subject the Employer to back pay awards, compensatory and punitive damages. Violations of either section 274B of the INA or Title VII may also lead to the termination of its participation in E-Verify. If the Employer has any questions relating to the anti-discrimination provision, it should contact OSC at 1-800-255-8155 or 1-800-237-2515 (TDD).

15. The Employer agrees that it will use the information it receives from E-Verify only to confirm the employment eligibility of employees as authorized by this MOU. The Employer agrees that it will safeguard this information, and means of access to it (such as PINS and passwords), to ensure that it is not used for any other purpose and as necessary to protect its confidentiality, including ensuring that it is not disseminated to any person other than employees of the Employer who are authorized to perform the Employer's responsibilities under this MOU, except for such dissemination as may be authorized in advance by SSA or DHS for legitimate purposes.

16. The Employer agrees to notify DHS immediately in the event of a breach of personal information. Breaches are defined as loss of control or unauthorized access to E-Verify personal data. All suspected or confirmed breaches should be reported by calling 1-888-464-4218 or via email at E-Verify@dhs.gov. Please use "Privacy Incident – Password" in the subject line of your email when sending a breach report to E-Verify.

17. The Employer acknowledges that the information it receives from SSA is governed by the Privacy Act (5 U.S.C. § 552a(i)(1) and (3)) and the Social Security Act (42 U.S.C. 1306(a)). Any person who obtains this information under false pretenses or uses it for any purpose other than as provided for in this MOU may be subject to criminal penalties.

18. The Employer agrees to cooperate with DHS and SSA in their compliance monitoring and evaluation of E-Verify, which includes permitting DHS, SSA, their contractors and other agents, upon

Company ID Number: 1201859

reasonable notice, to review Forms I-9 and other employment records and to interview it and its employees regarding the Employer's use of E-Verify, and to respond in a prompt and accurate manner to DHS requests for information relating to their participation in E-Verify.

19. The Employer shall not make any false or unauthorized claims or references about its participation in E-Verify on its website, in advertising materials, or other media. The Employer shall not describe its services as federally-approved, federally-certified, or federally-recognized, or use language with a similar intent on its website or other materials provided to the public. Entering into this MOU does not mean that E-Verify endorses or authorizes your E-Verify services and any claim to that effect is false.

20. The Employer shall not state in its website or other public documents that any language used therein has been provided or approved by DHS, USCIS or the Verification Division, without first obtaining the prior written consent of DHS.

21. The Employer agrees that E-Verify trademarks and logos may be used only under license by DHS/USCIS (see [M-795 \(Web\)](#)) and, other than pursuant to the specific terms of such license, may not be used in any manner that might imply that the Employer's services, products, websites, or publications are sponsored by, endorsed by, licensed by, or affiliated with DHS, USCIS, or E-Verify.

22. The Employer understands that if it uses E-Verify procedures for any purpose other than as authorized by this MOU, the Employer may be subject to appropriate legal action and termination of its participation in E-Verify according to this MOU.

B. RESPONSIBILITIES OF FEDERAL CONTRACTORS

1. If the Employer is a Federal contractor with the FAR E-Verify clause subject to the employment verification terms in Subpart 22.18 of the FAR, it will become familiar with and comply with the most current version of the E-Verify User Manual for Federal Contractors as well as the E-Verify Supplemental Guide for Federal Contractors.

2. In addition to the responsibilities of every employer outlined in this MOU, the Employer understands that if it is a Federal contractor subject to the employment verification terms in Subpart 22.18 of the FAR it must verify the employment eligibility of any "employee assigned to the contract" (as defined in FAR 22.1801). Once an employee has been verified through E-Verify by the Employer, the Employer may not create a second case for the employee through E-Verify.

a. An Employer that is not enrolled in E-Verify as a Federal contractor at the time of a contract award must enroll as a Federal contractor in the E-Verify program within 30 calendar days of contract award and, within 90 days of enrollment, begin to verify employment eligibility of new hires using E-Verify. The Employer must verify those employees who are working in the United States, whether or not they are assigned to the contract. Once the Employer begins verifying new hires, such verification of new hires must be initiated within three business days after the hire date. Once enrolled in E-Verify as a Federal contractor, the Employer must begin verification of employees assigned to the contract within 90 calendar days after the date of enrollment or within 30 days of an employee's assignment to the contract, whichever date is later.

- b. Employers enrolled in E-Verify as a Federal contractor for 90 days or more at the time of a contract award must use E-Verify to begin verification of employment eligibility for new hires of the Employer who are working in the United States, whether or not assigned to the contract, within three business days after the date of hire. If the Employer is enrolled in E-Verify as a Federal contractor for 90 calendar days or less at the time of contract award, the Employer must, within 90 days of enrollment, begin to use E-Verify to initiate verification of new hires of the contractor who are working in the United States, whether or not assigned to the contract. Such verification of new hires must be initiated within three business days after the date of hire. An Employer enrolled as a Federal contractor in E-Verify must begin verification of each employee assigned to the contract within 90 calendar days after date of contract award or within 30 days after assignment to the contract, whichever is later.
- c. Federal contractors that are institutions of higher education (as defined at 20 U.S.C. 1001(a)), state or local governments, governments of Federally recognized Indian tribes, or sureties performing under a takeover agreement entered into with a Federal agency under a performance bond may choose to only verify new and existing employees assigned to the Federal contract. Such Federal contractors may, however, elect to verify all new hires, and/or all existing employees hired after November 6, 1986. Employers in this category must begin verification of employees assigned to the contract within 90 calendar days after the date of enrollment or within 30 days of an employee's assignment to the contract, whichever date is later.
- d. Upon enrollment, Employers who are Federal contractors may elect to verify employment eligibility of all existing employees working in the United States who were hired after November 6, 1986, instead of verifying only those employees assigned to a covered Federal contract. After enrollment, Employers must elect to verify existing staff following DHS procedures and begin E-Verify verification of all existing employees within 180 days after the election.
- e. The Employer may use a previously completed Form I-9 as the basis for creating an E-Verify case for an employee assigned to a contract as long as:
- i. That Form I-9 is complete (including the SSN) and complies with Article II.A.6,
 - ii. The employee's work authorization has not expired, and
 - iii. The Employer has reviewed the Form I-9 information either in person or in communications with the employee to ensure that the employee's Section 1, Form I-9 attestation has not changed (including, but not limited to, a lawful permanent resident alien having become a naturalized U.S. citizen).
- f. The Employer shall complete a new Form I-9 consistent with Article II.A.6 or update the previous Form I-9 to provide the necessary information if:
- i. The Employer cannot determine that Form I-9 complies with Article II.A.6,
 - ii. The employee's basis for work authorization as attested in Section 1 has expired or changed, or
 - iii. The Form I-9 contains no SSN or is otherwise incomplete.

Note: If Section 1 of Form I-9 is otherwise valid and up-to-date and the form otherwise complies with

Article II.C.5, but reflects documentation (such as a U.S. passport or Form I-551) that expired after completing Form I-9, the Employer shall not require the production of additional documentation, or use the photo screening tool described in Article II.A.5, subject to any additional or superseding instructions that may be provided on this subject in the E-Verify User Manual.

g. The Employer agrees not to require a second verification using E-Verify of any assigned employee who has previously been verified as a newly hired employee under this MOU or to authorize verification of any existing employee by any Employer that is not a Federal contractor based on this Article.

3. The Employer understands that if it is a Federal contractor, its compliance with this MOU is a performance requirement under the terms of the Federal contract or subcontract, and the Employer consents to the release of information relating to compliance with its verification responsibilities under this MOU to contracting officers or other officials authorized to review the Employer's compliance with Federal contracting requirements.

C. RESPONSIBILITIES OF SSA

1. SSA agrees to allow DHS to compare data provided by the Employer against SSA's database. SSA sends DHS confirmation that the data sent either matches or does not match the information in SSA's database.

2. SSA agrees to safeguard the information the Employer provides through E-Verify procedures. SSA also agrees to limit access to such information, as is appropriate by law, to individuals responsible for the verification of Social Security numbers or responsible for evaluation of E-Verify or such other persons or entities who may be authorized by SSA as governed by the Privacy Act (5 U.S.C. § 552a), the Social Security Act (42 U.S.C. 1306(a)), and SSA regulations (20 CFR Part 401).

3. SSA agrees to provide case results from its database within three Federal Government work days of the initial inquiry. E-Verify provides the information to the Employer.

4. SSA agrees to update SSA records as necessary if the employee who contests the SSA tentative nonconfirmation visits an SSA field office and provides the required evidence. If the employee visits an SSA field office within the eight Federal Government work days from the date of referral to SSA, SSA agrees to update SSA records, if appropriate, within the eight-day period unless SSA determines that more than eight days may be necessary. In such cases, SSA will provide additional instructions to the employee. If the employee does not visit SSA in the time allowed, E-Verify may provide a final nonconfirmation to the employer.

Note: If an Employer experiences technical problems, or has a policy question, the employer should contact E-Verify at 1-888-464-4218.

D. RESPONSIBILITIES OF DHS

1. DHS agrees to provide the Employer with selected data from DHS databases to enable the Employer to conduct, to the extent authorized by this MOU:

a. Automated verification checks on alien employees by electronic means, and

- b. Photo verification checks (when available) on employees.
2. DHS agrees to assist the Employer with operational problems associated with the Employer's participation in E-Verify. DHS agrees to provide the Employer names, titles, addresses, and telephone numbers of DHS representatives to be contacted during the E-Verify process.
3. DHS agrees to provide to the Employer with access to E-Verify training materials as well as an E-Verify User Manual that contain instructions on E-Verify policies, procedures, and requirements for both SSA and DHS, including restrictions on the use of E-Verify.
4. DHS agrees to train Employers on all important changes made to E-Verify through the use of mandatory refresher tutorials and updates to the E-Verify User Manual. Even without changes to E-Verify, DHS reserves the right to require employers to take mandatory refresher tutorials.
5. DHS agrees to provide to the Employer a notice, which indicates the Employer's participation in E-Verify. DHS also agrees to provide to the Employer anti-discrimination notices issued by the Office of Special Counsel for Immigration-Related Unfair Employment Practices (OSC), Civil Rights Division, U.S. Department of Justice.
6. DHS agrees to issue each of the Employer's E-Verify users a unique user identification number and password that permits them to log in to E-Verify.
7. DHS agrees to safeguard the information the Employer provides, and to limit access to such information to individuals responsible for the verification process, for evaluation of E-Verify, or to such other persons or entities as may be authorized by applicable law. Information will be used only to verify the accuracy of Social Security numbers and employment eligibility, to enforce the INA and Federal criminal laws, and to administer Federal contracting requirements.
8. DHS agrees to provide a means of automated verification that provides (in conjunction with SSA verification procedures) confirmation or tentative nonconfirmation of employees' employment eligibility within three Federal Government work days of the initial inquiry.
9. DHS agrees to provide a means of secondary verification (including updating DHS records) for employees who contest DHS tentative nonconfirmations and photo mismatch tentative nonconfirmations. This provides final confirmation or nonconfirmation of the employees' employment eligibility within 10 Federal Government work days of the date of referral to DHS, unless DHS determines that more than 10 days may be necessary. In such cases, DHS will provide additional verification instructions.

ARTICLE III

REFERRAL OF INDIVIDUALS TO SSA AND DHS

A. REFERRAL TO SSA

1. If the Employer receives a tentative nonconfirmation issued by SSA, the Employer must print the notice as directed by E-Verify. The Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify

Company ID Number: 1201859

case. The Employer also agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer agrees to provide written referral instructions to employees and instruct affected employees to bring the English copy of the letter to the SSA. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending.

2. The Employer agrees to obtain the employee's response about whether he or she will contest the tentative nonconfirmation as soon as possible after the Employer receives the tentative nonconfirmation. Only the employee may determine whether he or she will contest the tentative nonconfirmation.
3. After a tentative nonconfirmation, the Employer will refer employees to SSA field offices only as directed by E-Verify. The Employer must record the case verification number, review the employee information submitted to E-Verify to identify any errors, and find out whether the employee contests the tentative nonconfirmation. The Employer will transmit the Social Security number, or any other corrected employee information that SSA requests, to SSA for verification again if this review indicates a need to do so.
4. The Employer will instruct the employee to visit an SSA office within eight Federal Government work days. SSA will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary.
5. While waiting for case results, the Employer agrees to check the E-Verify system regularly for case updates.
6. The Employer agrees not to ask the employee to obtain a printout from the Social Security Administration number database (the Numident) or other written verification of the SSN from the SSA.

B. REFERRAL TO DHS

1. If the Employer receives a tentative nonconfirmation issued by DHS, the Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify case. The Employer also agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending.
2. The Employer agrees to obtain the employee's response about whether he or she will contest the tentative nonconfirmation as soon as possible after the Employer receives the tentative nonconfirmation. Only the employee may determine whether he or she will contest the tentative nonconfirmation.
3. The Employer agrees to refer individuals to DHS only when the employee chooses to contest a tentative nonconfirmation.
4. If the employee contests a tentative nonconfirmation issued by DHS, the Employer will instruct the

Company ID Number: 1201859

employee to contact DHS through its toll-free hotline (as found on the referral letter) within eight Federal Government work days.

5. If the Employer finds a photo mismatch, the Employer must provide the photo mismatch tentative nonconfirmation notice and follow the instructions outlined in paragraph 1 of this section for tentative nonconfirmations, generally.

6. The Employer agrees that if an employee contests a tentative nonconfirmation based upon a photo mismatch, the Employer will send a copy of the employee's Form I-551, Form I-766, U.S. Passport, or passport card to DHS for review by:

- a. Scanning and uploading the document, or
- b. Sending a photocopy of the document by express mail (furnished and paid for by the employer).

7. The Employer understands that if it cannot determine whether there is a photo match/mismatch, the Employer must forward the employee's documentation to DHS as described in the preceding paragraph. The Employer agrees to resolve the case as specified by the DHS representative who will determine the photo match or mismatch.

8. DHS will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary.

9. While waiting for case results, the Employer agrees to check the E-Verify system regularly for case updates.

ARTICLE IV SERVICE PROVISIONS

A. NO SERVICE FEES

1. SSA and DHS will not charge the Employer for verification services performed under this MOU. The Employer is responsible for providing equipment needed to make inquiries. To access E-Verify, an Employer will need a personal computer with Internet access.

ARTICLE V MODIFICATION AND TERMINATION

A. MODIFICATION

1. This MOU is effective upon the signature of all parties and shall continue in effect for as long as the SSA and DHS operates the E-Verify program unless modified in writing by the mutual consent of all parties.

2. Any and all E-Verify system enhancements by DHS or SSA, including but not limited to E-Verify checking against additional data sources and instituting new verification policies or procedures, will be covered under this MOU and will not cause the need for a supplemental MOU that outlines these changes.

B. TERMINATION

1. The Employer may terminate this MOU and its participation in E-Verify at any time upon 30 days prior written notice to the other parties.
2. Notwithstanding Article V, part A of this MOU, DHS may terminate this MOU, and thereby the Employer's participation in E-Verify, with or without notice at any time if deemed necessary because of the requirements of law or policy, or upon a determination by SSA or DHS that there has been a breach of system integrity or security by the Employer, or a failure on the part of the Employer to comply with established E-Verify procedures and/or legal requirements. The Employer understands that if it is a Federal contractor, termination of this MOU by any party for any reason may negatively affect the performance of its contractual responsibilities. Similarly, the Employer understands that if it is in a state where E-Verify is mandatory, termination of this by any party MOU may negatively affect the Employer's business.
3. An Employer that is a Federal contractor may terminate this MOU when the Federal contract that requires its participation in E-Verify is terminated or completed. In such cases, the Federal contractor must provide written notice to DHS. If an Employer that is a Federal contractor fails to provide such notice, then that Employer will remain an E-Verify participant, will remain bound by the terms of this MOU that apply to non-Federal contractor participants, and will be required to use the E-Verify procedures to verify the employment eligibility of all newly hired employees.
4. The Employer agrees that E-Verify is not liable for any losses, financial or otherwise, if the Employer is terminated from E-Verify.

ARTICLE VI PARTIES

- A. Some or all SSA and DHS responsibilities under this MOU may be performed by contractor(s), and SSA and DHS may adjust verification responsibilities between each other as necessary. By separate agreement with DHS, SSA has agreed to perform its responsibilities as described in this MOU.
- B. Nothing in this MOU is intended, or should be construed, to create any right or benefit, substantive or procedural, enforceable at law by any third party against the United States, its agencies, officers, or employees, or against the Employer, its agents, officers, or employees.
- C. The Employer may not assign, directly or indirectly, whether by operation of law, change of control or merger, all or any part of its rights or obligations under this MOU without the prior written consent of DHS, which consent shall not be unreasonably withheld or delayed. Any attempt to sublicense, assign, or transfer any of the rights, duties, or obligations herein is void.
- D. Each party shall be solely responsible for defending any claim or action against it arising out of or related to E-Verify or this MOU, whether civil or criminal, and for any liability wherefrom, including (but not limited to) any dispute between the Employer and any other person or entity regarding the applicability of Section 403(d) of IIRIRA to any action taken or allegedly taken by the Employer.
- E. The Employer understands that its participation in E-Verify is not confidential information and may be disclosed as authorized or required by law and DHS or SSA policy, including but not limited to,

Company ID Number: 1201859

Congressional oversight, E-Verify publicity and media inquiries, determinations of compliance with Federal contractual requirements, and responses to inquiries under the Freedom of Information Act (FOIA).

F. The individuals whose signatures appear below represent that they are authorized to enter into this MOU on behalf of the Employer and DHS respectively. The Employer understands that any inaccurate statement, representation, data or other information provided to DHS may subject the Employer, its subcontractors, its employees, or its representatives to: (1) prosecution for false statements pursuant to 18 U.S.C. 1001 and/or; (2) immediate termination of its MOU and/or; (3) possible debarment or suspension.

G. The foregoing constitutes the full agreement on this subject between DHS and the Employer.

To be accepted as an E-Verify participant, you should only sign the Employer's Section of the signature page. If you have any questions, contact E-Verify at 1-888-464-4218.

Equipment shall be delivered with the following documents completed or included:

- a. Any and all applicable documentation required by the Florida Department of Highway Safety and Motor Vehicles;
- b. Temporary registration and tag (when applicable);
- c. All manuals (electronic & paper Copy);
- d. All warranty certifications;
- e. Original Invoice;
- f. A copy of pre-delivery service report;

- g. A copy of applicable equipment specifications; and
- h. A copy of build sheet or documentation that verifies what components are included on the equipment being delivered.

6. WARRANTY.

The warranty becomes effective when the Vehicles or Services are put into use by the City or at a maximum of thirty (30) days after delivery, whichever occurs first.

7. TERM.

A. Initial Term. The initial term of this Agreement shall commence on the Effective Date and shall continue for a period of three (3) years (the "Initial Term").

B. Extension Term. Upon written, mutual agreement by the Vendor and the City, this Agreement may be extended at the conclusion of the Initial Term for an additional two (2) years (the "Extension"). The Vendor and the City must agree to extend the Agreement no later than thirty (30) days prior to the expiration of the Initial Term of the Agreement.

8. TERMINATION.

A. Termination for Cause. If the Vendor fails to fulfill any of its obligations under this Agreement and does not cure such default within thirty (30) days after receipt of written notice from the City, such failure shall be considered a default and shall entitle, but not obligate, the City to suspend performance under this Agreement or to terminate this Agreement, in whole or in part, wholly at the City's discretion.

B. Termination for Convenience. Additionally, the City shall have the right to terminate this Agreement for convenience, in whole or in part, upon 90-day notice, without the Vendor being in default thereunder. In the event of termination for convenience, the City shall pay the Vendor (i) the full amount due for services satisfactorily rendered, (ii) approved costs and expenses incurred which remain unpaid at the time of such termination, and (iii) such other costs of termination, if any, as may be mutually agreed by the parties.

C. Termination Process. Termination shall be effected by (i) delivery of written notice to the Vendor from the City specifying whether termination is for default or convenience, (ii) providing detail as to the extent to which services under this Agreement are to be terminated, and (iii) specifying the date

upon which such termination becomes effective. After receipt of the written termination notice, and except as otherwise directed in writing by the City, the Vendor shall promptly stop work under this Agreement on the date and to the extent specified in the termination notice, terminate all subcontracts that relate to the performance of the services terminated by the termination notice, and complete performance of any services which have not been terminated. In the event the Agreement is canceled for default under the Agreement, the City may withhold funds owed to the Vendor in an amount sufficient to compensate for actual damages suffered from the default resulting in termination of the Agreement.

9. FINANCIAL CONSEQUENCES OF NON-PERFORMANCE.

A. The City may apply financial consequences if the Vendor fails to perform in accordance with the terms of the Agreement. If the Vendor fails to remedy performance deficiencies within thirty (30) days of being provided notice of such deficiency by the City, the Vendor may be assessed a non-performance retainage equivalent to 10% or \$1,000.00, whichever is less, of the total invoice amount for the task or project. The retainage will be applied to the invoice for the then-current billing period. The retainage will be withheld until the Vendor resolves the deficiency. If the deficiency is subsequently resolved, the Vendor may invoice the City for the retained amount during the next billing period. If the Vendor is unable to resolve the deficiency, the retained funds will be forfeited.

B. The Vendor shall not be charged retained funds when the non-performance is a result of delay in delivery or performance arising out causes beyond the control and without fault or negligence of the Vendor due to manufacturer delays. To substantiate a delay in manufacturer product delivery, the Vendor is required to submit written proof of delay to the City in the form of a letter or email sent from the manufacturer to the Vendor. The City agrees that no retained funds will be withheld from the Vendor after written proof of the manufacturer's product delivery delay is provided to the City and, if necessary, regularly updated if the delay continues past any date which may be included in the written communication from the manufacturer.

10. LIQUIDATED DAMAGES.

A. If the Vendor fails to provide the Vehicles or Services within the time specified in this Agreement, any applicable Purchase Order, or any negotiated extension, the Vendor shall pay the minimum sum of \$100.00 for each calendar day of delay, not to exceed \$1,500.00 per month, to the City

as fixed and liquidated damages. In the event the City is penalized monetarily by federal, state, or local entities as a result of the Vendor delay, error, and/or poor performance issues, the Vendor may be required to reimburse the City the full amount of the assessed penalty.

B. Alternatively, if delivery or performance is delayed, the City may terminate this Agreement in whole or in part, under the Termination provision in this Agreement. In the event of termination for delivery or performance delay, the Vendor may be liable for (i) reimbursement to the City for costs spent to procure the Vehicles or Services from another vendor or (ii) for payment of liquidated damages as provided in above until such time as the City may reasonably obtain delivery or performance of similar Vehicles or Services.

C. The Vendor shall not be charged with liquidated damages, including if the City is penalized by federal, state or local entities, when the delay in delivery or performance arises out of causes beyond the control and without the fault or negligence of the Vendor caused by delay in manufacturer product delivery.

11. INDEMNIFICATION. The Vendor shall hold harmless and indemnify the City and its officials, officers, and employees from all claims, damages, losses, expenses, suits or actions against all third-party claims, losses, expenses, suits, or actions against the City, including, without limitation, costs of defending the action and attorney's fees, to the extent the claims arise out of or result from the performance and furnishing of the work, services, materials, goods, or equipment under the Agreement (including, but not limited to, claims regarding defects in materials, goods, equipment, and patent infringement) and such claim is caused in whole, or in part, by any breach of contract, act, or omission of the Vendor, its subcontractors, anyone directly or indirectly employed by any of them, or anyone whose acts any of them may be liable. In any and all claims against the City, or any of its agents or employees by any employee of the Vendor, its subcontractors, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, the indemnification obligation under this clause shall not be limited in any way by limitation on the amount or type of damages, compensation or benefits payable by or for the Vendor or its subcontractors under any Workers' Compensation Act, Disability Act, or other Employee Benefit Act.

12. AVAILABILITY OF FUNDS. City funds may not be available for performance under this Agreement beyond September 30 of each year of this Agreement. The City's obligation for performance of this Agreement beyond that date is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the City for any payment may arise for performance under this Agreement beyond the referenced date until funds are made available.

13. NOTIFICATION OF INSOLVENCY. In the event the Vendor enters into a proceeding relating to bankruptcy or an assignment for the benefit of creditors, whether voluntary or involuntary, the Vendor agrees to furnish, by certified mail or other method authorized by the Agreement, written notification of the proceeding to the City. This notification shall be furnished within five (5) days of the initiation of the proceedings relating to bankruptcy filing or transfer of legal and equitable title of assets to a third party under an assignment for the benefit of creditors. This notification shall include the date on which the bankruptcy petition was filed or the transfer consummated, the identity of the court in which the bankruptcy petition was filed or the name of the entity holding Vendor's assets, and a listing of City contract or purchase order numbers for all City contracts against which final payment has not been made. This obligation remains in effect until final payment of net receipts under this Agreement has been made to the Vendor.

14. CHOICE OF LAW AND VENUE. All questions concerning the construction, validity, and interpretation of this Agreement shall be governed by the law of the State of Florida. Any dispute arising out of, concerning, or relating to this Agreement between the Parties shall be resolved exclusively in a federal or state court of competent jurisdiction located in Tallahassee, Leon County, Florida. To the extent necessary, the Parties hereby submit to, and agree not to contest, the jurisdiction of such courts. The Parties also agree to waive any right to trial by jury in any dispute or litigation arising from, concerning, or relating to this Agreement.

15. REMEDIES. No remedy herein conferred upon any Party is intended to be exclusive of any other remedy. Each and every remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or at equity by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further

exercise thereof.

16. NO WAIVER; SEVERABILITY; SECTION HEADINGS. No failure of either Party to exercise or enforce any of its rights under this Agreement shall act as a waiver of such rights. If any provision of this Agreement is determined in any proceeding binding upon the Parties to be invalid or unenforceable, that provision will be deemed severed from the remainder of the Agreement and the remaining provisions shall continue in full force and effect; provided however, that if a court by limiting such provision determines that the provision would become valid and enforceable, then such provision will be deemed to be written, construed, and enforced as so limited so long as the result is consistent with the Parties' expressed intentions herein. The section headings in this Agreement are solely for the convenience of the Parties and have no legal or contractual effect. This Agreement is entered into by sophisticated entities with access to counsel and shall not be construed against either Party as the "drafting" party.

17. RELATIONSHIP BETWEEN THE PARTIES. The Vendor and the City acknowledge and agree that this Agreement is not and shall not be construed as an agreement of joint venture, partnership, agency, franchise, or employment between the Parties or their respective employees. For all purposes under this Agreement, each Party shall be and act as an independent contractor to the other and shall not be authorized to, and shall not, bind or attempt to bind the other to any contract or agreement.

18. NOTICES. All notices required to be given under this Agreement shall be given in writing and sent to the following:

For the City:

Attn: Fleet Management Director
400 Dupree Street
Tallahassee, FL 32304
with a copy via email to:

Sebring, FL 33870
with a copy via to:

All notices shall be given by certified or registered mail, overnight carrier, or personal delivery. Such notices shall be deemed given on the date of receipt of delivery of (or refusal to accept) said notice. Notwithstanding the foregoing, any day-to-day operational correspondence may be made by phone, email, or other mutually agreeable mechanism.

19. ASSIGNMENT. Neither Party may sell, assign, or transfer this Agreement without the prior written consent of the other Party; provided, however, that either Party may (with notice but without the prior consent of the other Party) assign this Agreement by operation of law, pursuant to a merger or acquisition of all or substantially all of its stock or assets, or to its affiliate. This Agreement shall be binding upon and inure to the benefit of the Parties and their respective successors and permitted assigns. The Vendor shall notify the City, in writing, thirty (30) calendar days prior to any assignment or transfer as allowed by this paragraph.

20. PUBLIC RECORDS. The Parties acknowledge that the City is a governmental entity and is subject to Florida's Public Records Law, Chapter 119, Florida Statutes. The Parties further acknowledge that some, or all, of the information, materials, documents provided to the City by the Vendor may be public records and, as such, may be subject to disclosure to, and copying by, the public unless otherwise exempted by statute. This provision shall constitute the City's sole obligation relating to maintaining confidentiality of any information or proprietary material of any kind submitted by the Vendor.

The Vendor also recognizes that by doing business with the City, its records relating to the Agreement may also be subject to the Public Records Act. **If the Vendor has questions regarding the application of Chapter 119, Florida Statutes, to the Vendor's duty to provide public records relating to this Agreement, the Vendor may contact the City's Custodian of Public Records at:**

21. SUBCONTRACTORS. Subcontractors are not allowed under this Agreement.

22. FORCE MAJEURE. Neither Party shall be liable for non-performance or delay, other than the payment of fees due hereunder, due in whole or in part to any Force Majeure Event. Force Majeure Event shall be defined as occurrence of an event which is outside the reasonable control of a party and

which prevents that party from performing its obligations under a contract. In the event a Party is hindered or prevented from performing hereunder due to a Force Majeure Event, such Party shall notify the other Party of the Force Majeure Event and the extent of its suspension as soon as reasonably practicable. Failure to give notice as timely as practicable under the circumstances shall result in the forfeiture of a Party's right to suspend its obligations hereunder. If a Force Majeure Event prevents, hinders, or delays performance of a Party's obligations hereunder for more than thirty (30) days, the Party not prevented from performing may, at its sole option, terminate this Agreement upon notice to the other Party.

23. INSURANCE COVERAGE. Prior to commencing work, the Vendor shall procure and maintain, at the Vendor's own cost and expense, throughout the Term of the Agreement, the following types and limits of insurance coverage in relation to the performance of work or provision of services hereunder by the Vendor, its agents, representatives, employees or subcontractors.

A. Commercial General/Umbrella Liability Insurance. \$1,000,000 limit per occurrence for property damage and bodily injury. The Vendor should indicate whether the coverage is provided on a claims-made or, preferably, on an occurrence basis. The insurance shall include coverage for the following:

- * Premise/Operations;
- * Explosion Collapse and Underground Property Damage Hazard (only where applicable to the project);
- * Products/Completed Operations;
- * Contractual;
- * Independent Contractors;
- * Broad Form Property Damage; and
- * Personal Injury.

B. Business Automobile/Umbrella Liability Insurance. \$1,000,000 limit per accident for property damage and personal injury, including coverage for:

- * Owned/Leased Autos;
- * Non-owned Autos; and
- * Hired Autos.

C. Workers' Compensation and Employers'/Umbrella Liability Insurance. Workers' Compensation coverage with benefits and monetary limits as set forth in Chapter 440, Florida Statutes. This policy shall include Employers'/Umbrella Liability coverage for \$1,000,000 per accident. Workers' Compensation coverage is required as a condition of performing work or services for the City whether the Vendor is otherwise required by law to provide such coverage.

D. Commercial General Liability and Automobile Liability Coverage.

- * The City, members of its City Commission, boards, commissions and committees, officers, agents, employees and volunteers (together, "City Insureds") are to be covered as additional insured as respects: liability arising out of activities performed by or on behalf of the Vendor; products and completed operations of the Vendor; premises owned, leased, or used by the Vendor; or premises on which the Vendor is performing services on behalf of the City. The coverage shall not contain special limitations on the scope of protection afforded the City Insureds.
- * The Vendor's insurance coverage shall be primary insurance for the City Insureds. Any other insurance or self-insurance maintained by or on behalf of the City Insureds shall be excess of the Vendor's insurance and shall not contribute to it.
- * Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the City Insureds.
- * Coverage shall state that the Vendor's insurance shall apply separately to each insured against whom a claim is made, or suit is brought, except with respect to the limits of the insurer's liability.

E. Worker's Compensation and Employers' Liability and Property Coverage. The insurer shall agree to waive all rights of subrogation against the City Insureds for losses arising from activities and operations of the Vendor in the performance of services under this Agreement.

F. Garage Liability Coverage. A minimum of \$1,000,000.00 limit per occurrence.

G. Garage Keepers Coverage. A minimum of \$500,000 per accident.

H. All Coverage.

- * Each insurance policy shall name the City as an additional insured.
- * Each insurance policy required by this clause shall be endorsed to state that coverage shall not be suspended, voided, canceled, reduced in coverage or in limits except after thirty (30) days prior written notice has been given to the City Contract Administrator.
- * If the Vendor, for any reason, fails to maintain insurance coverage which is required pursuant to this Agreement, it shall be deemed a material breach of the Agreement. The City, at its sole option, may terminate this Agreement and obtain damages from the Vendor resulting from said breach.
- * Alternatively, the City may purchase such required insurance coverage (but has no special obligation to do so) and, without further notice to the Vendor, the City may deduct any premium costs advanced by the City for such insurance from sums due to the Vendor.

I. Deductibles and Self-Insured Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. At the option of the City, the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City Insureds; or the Vendor shall procure a bond guaranteeing payment of losses, related investigation, claim administration, and defense expenses.

J. Acceptability of Insurers. Insurance is to be placed with Florida insurers rated B+X or better by A.M. Best's rating service.

K. Verification of Coverage. The Vendor shall furnish the City with certificates of insurance and with original endorsements providing evidence of required coverage. The certificates and endorsements for each policy must be signed by a person authorized by that insurer to bind coverage on the Vendor's behalf. The certificates and endorsements must be received and approved by the City before work commences. Certificates of Insurance must be annotated with the applicable contract number.

24. SOVEREIGN IMMUNITY. Nothing contained herein shall constitute a waiver by the City of any applicable sovereign immunity as described under the provisions of Section 768.28, Florida Statutes.

25. COUNTERPARTS. This Agreement may be executed in two or more counterparts, each of which shall be deemed to be an original, but all of which together shall constitute one and the same instrument. The Parties agree that electronic signatures of the Parties, whether digital or encrypted, have the same force and effect as manual signatures. Delivery of a copy of this Agreement or any other document contemplated hereby bearing an original or electronic signature by facsimile transmission, by electronic mail in portable document format (.pdf) form, or by any other electronic means intended to preserve the original textual, graphic and pictorial appearance of a document, have the same effect as physical delivery of the paper document bearing an original or electronic signature.

26. ORDER OF PRECEDENCE. In the event of any inconsistency between any provisions of this Agreement and the Agreement Documents, and unless specifically stated otherwise, the inconsistency shall be resolved by giving precedence in the following order:

- A. This Agreement, and any written attachments and future written Amendments or Purchase Orders.
- B. Purchase Orders arising from this Agreement, including any associated quote and build sheets.
- C. City Solicitation RFP No.069-21-KM, including all addenda.
- D. Vendor's Response to the City's Solicitation.

27. E-VERIFY. The Contractor, and its subcontractors, must register with and utilize, the U.S. Department of Homeland Security's E-Verify system to verify the work authorization status of all newly hired employees, pursuant to Section 448.095, Florida Statutes. Registration must take place prior to execution of this contract. If the Contractor enters into any agreement with a subcontractor for performance of services under this contract, the subcontractor must provide an affidavit to the Contractor which states that the subcontractor does not employ, contract with, or subcontract with any unauthorized aliens. The Contractor is required to maintain a copy of such affidavit throughout the term of this contract.

The Contractor agrees to adhere to the requirements of Section 448.095, Florida Statutes, and understands that failure to comply with the statute will result in termination of this contract. If such termination occurs, the Contractor will not be awarded another City contract for at least one (1) year from the termination date and will be liable for any additional costs incurred by the City as a result of the termination.

28. ENTIRE AGREEMENT. This Agreement, including its attachments and associated documents, constitutes the entire Agreement between the Parties pertaining to the subject matter hereof, and supersedes in their entirety all written or oral agreements previously existing between the Parties with respect to such subject matter. No supplement, modification, addendum, or amendment of this Agreement shall be binding unless executed in writing by both Parties. In the event of any conflict between any terms of this Agreement and any terms of any attachment, the terms of this Agreement shall supersede, govern, and control to the extent of the inconsistency.

IN WITNESS WHEREOF, the Parties hereto have executed this Agreement by their duly authorized representatives.

PLANNING DIRECTOR'S REPORT 4.1

Mr. Carwash - Annexation / FLu & Zoning

Planning Report on a petition to Annex, assign a future land use and rezoning of approximately 1.09 acres (03-26-21-0020-00000-0090) located on the west side of Gall Blvd and south of Eiland Blvd.

Issue:

The applicant is planning to construct a drive-through car wash on the subject property that is currently an existing enclave located in Pascal County. A conceptual site plan is provided for illustrative purposes and will be reviewed at a later date by the Site Plan review Committee. The annexation will result in the partial reduction of an existing County enclave and meets the FS Chpt 171 annexation requirements. The proposed future land use (FLU) is MU (Mixed Use), which allows commercial use. The proposed zoning is C2 (Community Commercial). The proposed FLU and Zoning is located within an existing commercial note and would be appropriate, consistent and suitable with the existing / planned development trends in this area of Gall Blvd.

The petition is also consistent with the goals, objectives and policies of the City's Comprehensive Plan. Water usage will be visited at the engineering of the site plan - Mr. Bostic did approve recommendation of the petition.

Background:

Attachment(s):

1. Location Map (1)
2. Mister Car Wash Staff Report (6) (1)
3. Presentation - Mister Car Wash

Fiscal Impact:

Yes - Annexation will allow future development to occur in the City and provide jobs / ad-valorem taxes to the City.

Staff Recommendation:

Staff and the Planning Commission recommend approval of the Petition for Annexation, Future Land Use to City Mixed Use and Zoning to City Community Commercial.

Staff Report Memorandum

To: Planning Commission and Honorable Mayor

The subject site is 1.09 acres more or less (mol) and located on the west side of Gall Blvd and south of Eiland Boulevard. See Figure 1 – Location Map and Figure 2 – Aerial Map.¹ The subject property is an existing County enclave and is located within the City / County JPA and utility service area boundary. According to the Utilities Department, the City has sufficient water under the existing WUP to service the development. Per the Joint Planning Area agreement (JPA) the City has coordinated with the County, and it has no objections or comments at this time.

Parcel ID Number(s): 03-26-21-0020-00000-0090

<u>Acreage:</u>	1.09 Acres
<u>Existing Land Use:</u>	Vacant / Trailer
<u>Existing Future Land Use:</u>	County ROR
<u>Proposed Future Land Use:</u>	MU (Mixed Use)
<u>Existing Zoning:</u>	County C2
<u>Proposed Zoning:</u>	City C2 (Community Commercial)

II. Detailed Project Description:

This application identifies Parcel ID Number 03-26-21-0010-11700-0020 and does not have an assigned address with the Pasco County property appraiser. There is only one (1) Parcel ID Number subject to review with this application.

As previously discussed, the subject property is generally located on the north side of Geiger Road approximately 1,500 feet from the Eiland Blvd. and Geiger Road intersection. The subject parcel in this three-part application under review includes approximately 4.155 acres and is rectangular in shape, with the exception of a parcel (separate from this petition) consisting of a single-family home on the subject parcel's southeastern border. Please see Figure 3 – Proposed Property Annexation Area Map for a survey of the subject property.

The subject property is heavily wooded and at the time of development a tree survey shall be submitted with a corresponding tree preservation plan. Any remaining caliper inches, after replanting the required minimum 3 inch caliper trees shall be calculated and a tree mitigation fund payment shall be paid in full prior to issuance of site permits. The Zephyrhills future land use map indicates the area to the north and northwest of the subject as PUD (the Silver Oaks planned unit development and Recreation and Open Space (the East Pasco YMCA); the area to the south of the subject parcel is RU, or residential urban and is developed as the Wedgewood Manor. Remaining County properties include medium density residential and high density residential developed as several mobile home parks and subdivisions. Additionally, there are several larger vacant parcels yet to be developed along with larger-lot single family residential uses in the vicinity. Because of the convenient and central location, Staff anticipates this area of Zephyrhills to experience additional small to medium-scale residential infill development over the coming years.

IV. DATA & ANALYSIS REVIEW

A. Character Analysis

North –The subject property adjoins a frontage road providing limited access to Gall Boulevard. This section of Gall Blvd is an established commercial node consisting of commercial businesses and Walgreens to the north.

West – Doctor office / undeveloped.

East – Frontage Rd / Gall Blvd / Culvers restaurant.

South – Doctor office.

B. Compatibility Analysis/Annexation:

Annexation: The proposed annexation portion of the three-pronged petition meets the following criteria set forth under State Statutes, and complies with the Joint Planning Area agreement between the County of Pasco and City of Zephyrhills (Please see Figure 3 – Proposed Properties Annexation Area Map):

State Statutes Chapter - 171.043 Character of the area to be annexed. A municipal governing body may propose to annex an area only if it meets the general standards of subsection (1) and the requirements of either subsection (2) or subsection (3).

1. The total area to be annexed must be contiguous to the municipality's boundaries at the time the annexation proceeding is begun and reasonably compact, and no part of the area shall be included within the boundary of another incorporated municipality.

2. Part or all of the area to be annexed must be developed for urban purposes. An area developed for urban purposes is defined as any area which meets any one of the following standards:

(a) It has a total resident population equal to at least two persons for each acre of land included within its boundaries;

(b) It has a total resident population equal to at least one person for each acre of land included within its boundaries and is subdivided into lots and tracts so that at least 60 percent of the total number of lots and tracts are 1 acre or less in size; or

(c) It is so developed that at least 60 percent of the total number of lots and tracts in the area at the time of annexation are used for urban purposes, and it is subdivided into lots and tracts so that at least 60 percent of the total acreage, not counting the acreage used at the time of annexation for nonresidential urban purposes, consists of lots and tracts 5 acres or less in size.

3. In addition to the area developed for urban purposes, a municipal governing body may include in the area to be annexed any area which does not meet the requirements of subsection (2) if such area either:

(a) Lies between the municipal boundary and an area developed for urban purposes, so that the area developed for urban purposes is either not adjacent to the municipal boundary or cannot be served by the municipality without extending services or water or sewer lines through such sparsely developed area; or

(b) Is adjacent, on at least 60 percent of its external boundary, to any combination of the municipal boundary and the boundary of an area or areas developed for urban purposes as defined in subsection (2).

The subject property is contiguous with properties that are already located within the city limits. Furthermore the subject property is generally located within or close to the actual City, and/or developed in an urban/suburban land use pattern. An annexation at this location is reasonable and meets the legal requirements for inclusion into the City boundary as well as the guidelines as prescribed above.

Compatibility:

The parcel is located in an existing commercial node and south of the City's major intersection of Gall Blvd & Eiland Blvd. and surrounded by a variety of commercial / professional office type uses. The proposed commercial use consistent with development patterns or anticipated development patterns in the area, please refer to Figure 7 – Proposed Site Plan (for illustrative purposes only). The development will utilize existing infrastructure and provide an infill

development opportunity providing the City with jobs and fiscal impacts. This development is considered appropriate for a continuation of commercial development already established in this area.

The subject property will be served by the City of Zephyrhills Police Department. The Police Station is located at 6118 8th Street which is a distance of approximately one mile from the subject property.

Future Land Use Map (FLUMA) Amendment

A comprehensive plan amendment is also included in this three-part application process. Upon approval, this request will assign the tract into the Mixed Use (MU) future land use category for the City of Zephyrhills. The MU classification purpose is to recognize properties to achieve a more balanced mix of uses with primary uses consisting of higher density residential, office and commercial uses. It also recognizes that such areas are well-suited for residential uses typical of suburban, non-intensive qualities. The density range in RU is 7.5 to 20.0 dwelling units per gross acre.

- (a) The subject property (1.09 acres) qualifies as a small-scale plan amendment;
- (b) The request is to change the subject property's future land use designation from ROR to MU (Mixed Use) and is consistent with the abutting properties, which are:
 - i. North - Commercial;
 - ii. East – Gall Blvd / Commercial;
 - iii. South – Commercial / professional Office.
 - iv. West – Professionanl office / Undeveloped.
- (c) The proposed change is consistent with the City of Zephyrhills Comprehensive Plan Goals, Objectives, and Policies;
- (d) According to the Utilities Department, water and waste water capacity is available for the proposed petition.

Figure 4 – Transportation Map

- (1) Subject parcel abuts Gall Blvd / Frontage Rd and a ROW use permit will be required at the time of site plan review and approval.
- (2) The proposed car was is to have a de minimus traffic impact. City of Zephyrhills LDC defines de minimum at less than 1,200 average daily trips. The proposal suggests a de minimus impact. A traffic impact statement has been verified by the City's consultant for traffic impacts. As a reminder the City is currently updating its de minimus, as well as other traffic impact regulation in coordination with its consultant and the County. See Figure 4- Transportation Map on previous page.

Figure 5 – Proposed FLU Map

The proposed future land use map amendment (FLUMA) is consistent with Chapter 163, Part II, FS, the City of Zephyrhills Comprehensive Plan, and the City's Land Development Code. It is also consistent and compatible with the land use/development trends of the area as it provides an essential industrial element. See Figure 5 – Proposed FLU Map

Figure 6 – Proposed Zoning Map C-2 Community Commercial

1. Rezoning
 - (a) The request is to change the subject property's zoning classification from County C2 to City C2;
 - (b) The requested zoning designation is consistent with the development patterns and zoning designations of the area and surrounding properties. The surrounding properties are:
 - i. North/Northwest – Planned Unit Development;
 - ii. East - Mobile Home Subdivision, Estate Residential and various residentially zoned properties in the County;
 - iii. South – Planned Unit Development, Estate Residential, and various residentially zoned properties in the County; and,
 - iv. West – Planned Unit Development, and various residentially zoned properties in the County.

- (c) The subject petition and subsequent development will not exhibit premature development based on the development patterns in the general vicinity and utility infrastructure availability.

The proposed zoning is consistent with the City of Zephyrhills Comprehensive Plan, Land Development Code, and City codes and ordinances. It is also compatible/consistent with the growth and development trends of the area. The project, consisting of 36 townhomes, will not create premature development. The proposed development is located around a variety of developed uses that provide functional, convenient, and necessary infrastructure. There are numerous residential uses within close proximity, as well as health care, commercial retail, educational facilities, worship opportunities, and, within a short commute, governmental offices and an airport. It is Staff's understanding that the developer will blend the project with the established residential development pattern within the immediate area and will complement the existing neighborhoods. Staff will enforce all applicable land development regulations and Comp Plan provisions to ensure compliance while providing for a development that is sympathetic and respectful to the adjacent residential uses. See Figure 6 – Proposed Zoning Map.

C. Natural & Historic Resources Analysis²

The following site characteristics are provided by BGE and are attached to this report:

1. Soil Types – Various well-drained soils, Zero to 5 percent that are generally well-suited for development;
2. Flood Plain – The subject property is located in Flood Zone “X” and is outside the 100-year flood zone. There is no identified apparent flood related threat.
3. Wetlands | Water Bodies –No wetlands.
4. Historic | Archaeological Resources – The subject property is located outside of the Zephyrhills Historic District and is not projected to impact any identified historic resources. If archaeological resources are found onsite during development, notification should be made to the Florida Department of Historical Resources.
5. Natural Resources– There appears to be no biological hotspots on the subject property. If species are found, such as gopher tortoises, proper permits shall be obtained prior to construction activities, as well as a full report and mitigation and/or relocation plan shall be submitted to the City if such activities are found on site.

D. Public Services Analysis | Impact

POLICE	Projected general police service demand is within the City's existing service capabilities.
FIRE	It is anticipated that the projected general fire service demand is within the County's existing service capabilities. The City is currently coordinating with the County.
WATER	Adequate supply and utility infrastructure is in the area, per Utilities Department.
SEWER	Anticipated minimal impact according to the Utilities Department.
SANITATION	Future development will be required to utilize City Sanitation services. The City partners with Pasco County for use of their landfill site. Anticipated impact is minimal.

TRANSPORTATION	The proposal does not require a formal traffic impact study because it meets the City's de-minimus threshold. City of Zephyrhills LDC defines de minimum at less than 1,200 average daily trips, the applicant has presented supporting information. A ROW use permit will be required.

1 INTRODUCTION

This Fiscal Sustainability Plan (FSP) has been prepared for the City of Zephyrhills Wastewater Treatment Facility Upgrades to achieve an Advanced Wastewater Treatment (AWT) platform. This document will assist the City's wastewater utility with comprehensive fiscal planning for the long-term management of the assets associated with the AWT Project.

The City's wastewater effluent disposal location is being impacted by the continued expansion and development of the City's airport. In addition, growth throughout the community is increasing flows and loads to the City's AWT Facility. The City's AWT Facility is within a Second Magnitude Springshed. The City is improving its AWT Facility nutrient removal to meet a proposed annual average Total Nitrogen (TN) limit of 3.0 milligrams per liter (mg-N/L) or less. The City's AWT Facility currently produces a final effluent meeting Part III Public Access Reuse (PAR) quality standards. Additional improvements to the existing biological nutrient removal (BNR) and tertiary filtration facilities are required to meet the proposed limits.

The AWT Facility and related improvements included:

- Installing a filter-influent pumping station. This involved demolishing the existing filter-effluent pump station and installing a new pump station and a motor control center building to pump and feed effluent from the clarifiers to the filters and a dedicated compressor building to support the new filter system.
- Installing a Parkson DynaSand® denitrifying filter and an optional carbon source feed system.
- Modifying Oxidation Ditches 1, 2, and 3 with dissolved oxygen (DO), oxygen-reduction potential (ORP), and Nitrate (NO₃) probes for Oxidation Ditches 2 and 3 and installing new DO and ORP probes for Oxidation Ditch 1.
- Installing motorized actuators to the Oxidation Ditches 2 and 3 flow control gates.
- Implementing a control panel system to support all the upgrades to the oxidation ditches.
- Integrating a manual transfer switch so that the new filter can be supported by either of the two emergency generators that serve alternate AWT Facility processes.
- Updating all pertinent supervisory control and data acquisition (SCADA) and fiber optic cable (FOC) components to accommodate the control and feedback improvements.

The existing processes and components at the AWT Facility have been upgraded to meet the regulatory requirements of the increased population and utility services in the City. The AWT Facility process and component assets include the following:

- Plant master lift station with adjustable speed drives.
- Pretreatment/headworks facility.
- BNR system (including denitrification filters, carbon storage and feed system, filter effluent pumping station, and oxidation ditches).
- Newly installed tertiary/effluent filter influent pump station with five vertical in-line pumps on variable frequency drives (VFDs).
- Newly installed tertiary/effluent filtration system with five upflow denitrifying sand filters (five filter cells with eight filter modules each).
- Dual secondary clarifiers with scum pumping stations.

Fiscal Sustainability Plan – City of Zephyrhills Wastewater Treatment Facility

- Dual chlorine contact chambers.
- 1.50-million-gallon reclaimed water (RCW) storage tank.
- Aerobic digesters.
- Three return-activated sludge (RAS) pumps.
- Two waste-activated sludge (WAS) pumps.
- Four rapid infiltration basins (RIBs).
- Dual sludge holding tanks.
- Belt filter press system.
- Updated electrical components (including generator, electrical buildings, lighting, VFDs, and power), local control panels (LCP), human-machine interfaces (HMI), programmable logic controls (PLCs), and SCADA systems throughout.

This FSP provides a fiscal plan for maintaining, repairing, and replacing the AWT Facility's assets over a 20-year planning period. The FSP is considered a living document and will be updated as needed to reflect current conditions of these assets.

2 ASSET INVENTORY, CONDITION, AND PERFORMANCE

The AWT Facility is a 4.5-million-gallon-per-day (MGD) annual average daily flow (AADF) and 11.25-MGD peak hourly flow (PHF) capacity water reclamation facility with collection systems, primary treatment, secondary treatment, secondary clarification, RAS/WAS/scum pumping, tertiary filtration with denitrification, disinfection, sludge holding for solids hauling, reclaimed discharge to PAR, and plant water pumping. The total cost funded by a State Revolving Fund (SRF) construction loan for this Project was \$6,188,840.

The *Asset Management Workbook Tool* was used to develop this FSP. The following tables, which are generated by the Asset Management Workbook, are included as attachments to this FSP:

- Attachment 1 – Asset Inventory
- Attachment 2 – Asset Rating

2.1 INVENTORY OF CRITICAL ASSETS

Attachment 1 is an inventory of critical assets. Figure 1 shows the layout of the AWT Facility, with buildings labeled A through G to correspond with Attachment 1. The AWT Facility's critical assets include the following:

- Primary Treatment: Two mechanical bar screens, one manual bar rack, one vortex-type grit-removal chamber, one magnetic flow meter, one influent sampler, an influent splitter box, instrumentation, electrical components, and control panels.
- Secondary Treatment: Single stage oxidation ditch containing a 1.89-million-gallon (MG) carrousel aeration basin, a two-stage oxidation ditch containing two aeration basins, two anoxic basins, two internal recycle flow control gates, a control panel, and analyzers.
- Clarification: Two 0.595-MG clarifiers, two carrousel mixers, and panels.
- RAS/WAS/Scum Pumping: Three RAS pumps, two WAS pumps, two scum pumps, instrumentation, and control panels.
- Filtration System: A complete deep bed continuous backwash up-flow granular-media (silica sand) filtration system consisting of 40 filter modules each with a 50-square-foot (ft²) surface area installed in five concrete basins (cells) and five filter-feed influent pumps.
- Compressed Air System: Two air compressors, two refrigerated dryers, one receiver tank, local controls panels, and air filters.
- Enhanced Nutrient-Removal: One magnetic flow meter and a carbon feed system to improve denitrification.
- Disinfection: Dual high-density polyethylene (HDPE) CCCs, five vertical turbine pumps, one chlorine pump skid, instrumentation, and a control panel.
- RCW Storage: One 1.5-MG RCW storage tank.
- RCW Pump Station: Five horizontal split-case pumps, one hydro-pneumatic tank, one air compressor, one flow meter, and control panels.
- RIBs: Four RIBs with a total area of 37.8 acres.
- Sludge Holding: Two sludge holding tanks and one aerobic digester with a centrifugal blower.

FIGURE 1 CITY OF ZEPHYRHILLS AWT FACILITY SITE LAYOUT

- Sludge Transfer Pump Station: Two pumps, sludge tank mixers, and control panels.
- Sludge Dewatering: One belt filter press with a 2-meter-wide belt.
- Dewatering Pump Station: Two pumps, one progressive cavity pump, a polymer system, and a control panel.

Attachment 2 from the FSP Workbook Tool provides guidance for rating the condition, probability of failure, and consequence of failure for each asset. Ratings and remaining useful life for each asset were selected because all of the equipment installed as part of this expansion is new and rated Condition 1; therefore, the probability of failure is a 1 or 2. The consequence of failure was based on past experience with similar assets and may be subjective. Ratings were entered into Table 1 to determine each asset's criticality. Table 1 summarizes the assets with a criticality rating of 6 or greater.

TABLE 1 ASSET CRITICALITY

Asset	Condition Rating	Probability of Failure (PoF)	Consequence of Failure (CoF)	Criticality ¹ (PoF x CoF)
Influent Jockey Pumps	1	2	4	8 – Important, not Critical
Influent High-Service Pumps	1	2	4	8 – Important, not Critical
Headworks Slide Gates	1	2	3	6 – Not Critical
Headworks Mechanical Screen	1	2	3	6 – Not Critical
Grit Pumps	1	2	3	6 – Not Critical
RAS Pumps	1	2	3	6 – Not Critical
WAS Pumps	1	2	3	6 – Not Critical
Filters	1	2	3	6 – Not Critical
Chemical Dosing Pumps	1	2	3	6 – Not Critical
Plant Pump Station 1 Pumps	1	2	3	6 – Not Critical
Plant Pump Station 2 Pumps	1	2	3	6 – Not Critical
Plant Water Pumping Station Pumps	1	2	3	6 – Not Critical

1. Table is sorted by criticality, in descending order, whereby items of highest criticality are listed first.

2.2 LEVEL OF SERVICE

The City of Zephyrhills' AWT Facility is a major component in the City's collection and treatment system and must function at all times. It includes Class I Level Redundancy throughout the facility and back-up generators for power source, and the SCADA system provides remote control and continuous monitoring of all major equipment.

3 EVALUATION OF WATER AND ENERGY CONSERVATION EFFORTS

Water and energy conservation measures that were incorporated into the Project include the following:

- Replacing the existing pumps, valves, and mechanical and operational equipment with higher-efficiency equipment.
- Using disinfected plant effluent as the source for plant water pumping station.
- Replacing the existing controls to improve efficiency including a new control panels, HMI, PLC, and SCADA system.
- Installing instrumentation probes in the secondary treatment to help control and optimize the aeration blowers.
- Installing VFDs on the new filter influent transfer pumps to save on energy costs and provide a more consistent flow pattern to the filters.

Installing higher-efficiency equipment will reduce operational costs and extend the useful life of the equipment. The new controls will provide operational flexibility and accessibility to real-time monitoring data, thereby improving the ability for facility operators to make modifications when necessary to optimize the operation, treatment, energy consumption, and efficiency of the AWT Facility and to monitor the facility for preventative maintenance needs to extend the life of the equipment.

4 ASSET MANAGEMENT AND FISCAL PLANNING

4.1 PLAN FOR IMPROVEMENT OF PROJECT ASSETS

Table 2 is from the FSP Workbook Tool and summarizes the assets scheduled for improvement over a 20-year planning period. This table establishes a current year budget to cover future expected expenses for the management of the AWT Facility's assets. Costs were estimated based on original equipment costs (procured, delivered, and installed) adjusted for inflation.

TABLE 2 IMPROVEMENT EXPENSES

Description	Need	Year Needed ¹	Cost
Modifying Existing Effluent Pump Station	Increasing operational capacity and efficiency.	2024	\$1.5 Million
Constructing 1 Surge Tank with Pumping Facilities	Increasing operational capacity and efficiency.	2025	\$2.5 Million

¹ Table is sorted by year expected for replacement, rehabilitation, and/or improvement.

4.2 FISCAL PLANNING

A fiscal plan for the replacement, rehabilitation, and improvement expenses of the Zephyrhills AWT Facility is intended to ensure that these expenses are incorporated into the City's annual budget and future rate determinations so that sufficient funding is available when needed. A combination of the following funding mechanisms is proposed to accumulate funds for future expenses for the Zephyrhills AWT Facility:

- Annual Revenues
- Increasing Utility Rates
- Municipal Bonds
- State-Revolving Fund Loans

Some of the larger-cost items that may be improved within the 20-year period may consider a low-interest loan, such as an SRF loan, or a municipal bond may be viable to fund those capital expenses. The remaining planned capital expenses can be incorporated into a rate adjustment implemented as a result of a rate study that can be performed for this Project. If an approved rate adjustment is incorporated, funding for these expenses should be available within the City's annual utility operating budget. However, the City's rate study should be reviewed annually to ensure that sufficient revenues are available and that the equipment condition, probability of failure, equipment/installation costs, and available funding resources are accurate and up to date.
